

100 C Programming Questions

1–10: Basics

1. Write a C program to print "Hello World".
2. Write a C program to print your name, age, and city.
3. Write a C program to add two numbers.
4. Write a C program to subtract two numbers.
5. Write a C program to multiply two numbers.
6. Write a C program to divide two numbers.
7. Write a C program to find the remainder of two numbers.
8. Write a C program to calculate the square of a number.
9. Write a C program to calculate the cube of a number.
10. Write a C program to swap two numbers using a temporary variable.

11–20: Basic Logic

11. Swap two numbers without using a temporary variable.
12. Find the average of 5 numbers.
13. Convert Celsius to Fahrenheit.
14. Convert Fahrenheit to Celsius.
15. Calculate simple interest.
16. Calculate compound interest.
17. Calculate power of a number using pow().
18. Check if a number is even or odd.
19. Check if a number is positive, negative, or zero.
20. Find the largest of two numbers.

21–30: Conditions

21. Find the largest among three numbers.
22. Check if a year is a leap year.
23. Check if a character is a vowel or consonant.
24. Check if a character is alphabet, digit, or special character.
25. Check voting eligibility (age ≥ 18).
26. Check if a number is divisible by 5 and 11.
27. Check if a number is palindrome.
28. Reverse a number.
29. Reverse a string.
30. Find the sum of digits of a number.

31–40: Loops

31. Print numbers from 1 to 100.
32. Print even numbers between 1 and 100.
33. Print odd numbers between 1 and 100.
34. Print multiplication table of a number.
35. Find factorial of a number.
36. Print Fibonacci series.
37. Find GCD of two numbers.
38. Find LCM of two numbers.
39. Count digits in a number.
40. Find the power of a number without using `pow()`.

41–50: Patterns

41. Print a square star pattern.
42. Print a right angle triangle pattern.
43. Print a pyramid star pattern.
44. Print an inverted pyramid.
45. Print a diamond star pattern.
46. Print number triangle pattern.
47. Print Floyd's triangle.
48. Print Pascal's triangle.
49. Print character pattern A-Z.
50. Print hollow square pattern.

51–60: Arrays

51. Input and display an array.
52. Find largest number in array.
53. Find smallest number in array.
54. Find sum of array elements.
55. Find average of array elements.
56. Reverse an array.
57. Search an element in array.
58. Sort array using bubble sort.
59. Sort array using selection sort.
60. Merge two arrays.

61–70: 2D Arrays / Matrix

- 61. Input a matrix and display it.
- 62. Add two matrices.
- 63. Subtract two matrices.
- 64. Multiply two matrices.
- 65. Find transpose of matrix.
- 66. Find largest number in matrix.
- 67. Find smallest number in matrix.
- 68. Find sum of each row.
- 69. Find sum of each column.
- 70. Check if matrix is symmetric.

71–80: Strings

- 71. Input and print a string.
- 72. Find length of string.
- 73. Copy string without using strcpy().
- 74. Concatenate two strings without strcat().
- 75. Compare two strings.
- 76. Count vowels and consonants in string.
- 77. Count words in string.
- 78. Reverse string without strrev().
- 79. Check if string is palindrome.
- 80. Convert string to uppercase.

81–90: Functions

- 81. Function to add two numbers.
- 82. Function to swap two numbers.
- 83. Function to check prime number.
- 84. Function to check Armstrong number.
- 85. Function to find factorial using recursion.
- 86. Function to print Fibonacci using recursion.
- 87. Function to find power using recursion.
- 88. Function to find GCD using recursion.
- 89. Function to find maximum of array.
- 90. Function to reverse a string.

91–100: Advanced / File Handling

- 91. Write a program using structure to store student details.
- 92. Store and display 5 student records using structure.
- 93. Add two complex numbers using structure.
- 94. Write a program using pointer to swap two numbers.
- 95. Write a program to access array using pointers.
- 96. Write a program to create and write data to a file.
- 97. Write a program to read data from a file.
- 98. Write a program to count characters in a file.
- 99. Write a program to append data to a file.
- 100. Write a program to copy contents of one file to another.
